Career Interest Profiler

Read each question carefully and decide whether or not you would like to do the activity.

Try not to think about whether you have enough education or training to perform the activity, or how much money you would make performing the activity.

Simply think about whether you would "like" or "dislike" performing the work activity.

This Interest Profiler helps you identify your interests and how they relate to the world of work. Your Interest Profiler scores will help you identify your strongest work-related interests. Knowing your work interests can help you decide what kinds of jobs and careers you may want to explore.
